As a member of the Romania Green Building Council, we hereby agree to actively support and adhere to the Mission Statement and Objectives of the RoGBC, and to contribute directly through our own organization's activities, as set out below:

RoGBC Mission Statement

The Romania Green Building Council will endeavor to deliver the market, educational and legislative conditions necessary to promote high-performance construction that is both sustainable and profitable. We will create an exemplary model for the region by ensuring the built environment will not imperil future generations but rather be a source of safety, comfort, innovation and opportunity.

RoGBC Objectives

To promote market transformation and facilitate the implementation of the next generation of high performing green constructions, the Romania Green Building Council will:

- » Facilitate the availability of the most up-to-date and highest quality training to create the necessary pool of national green building experts
- » Support the development of appropriate regulatory conditions that promote sustainable constructions while ensuring attractive returns on investment
- » Develop and implement a national green building standards and certification system
- » Support the development of best in class in-country green construction and position Romania as a sustainable construction leader in the region
- » Build an inclusive organization by facilitating the collaboration between all relevant players in order to eliminate systemic barriers to promote a truly sustainable built environment
- » Promote domestic, regional and international collaboration to share knowledge and encourage innovation
- » Research, compile and disseminate best practices for the region and encourage their adoption and implementation.

Member Commitment

We hereby commit to actively support the Mission and the Objectives of the Romania Green Building Council, and to contribute our organization's effort to creating a sustainable built environment.
